A little rascal is a small breed dog or small breed puppy. A Rascals class is so much fun, your guy won't even know he's being trained. Each command will be short to help with short attention spans. Once your dog has done a few good commands, the reward will be to have a great time off leash with other dogs just his size. Big or small: if a dog is having fun at learning, they will retain it forever. [with practice from you]

Teach your little one that training is fun. You are the leader. Rewards, playing with new doggie pals is a reward for good behavior. Help your rascal become more social and go home with a very very happy and tired dog.

Done in a safe fenced acre with certified trainer: Even little dogs need to be social. if you have a shy, timid or insecure rascal is fine. This class will definitely help them come out of their shell. There is nothing better than having a secure, well behaved dog. big or small. they all need the same things.
